Report of Schools.

The Superintendent and Superintending School Committee's report and recommendations.

CITIZENS OF NORRIDGEWOCK:

The following is the report of the schools for the year ending February 15, 1919.

The past school year has been rather broken; due to two reasons, first, influenza; second, shortage of teachers. We have, however, met with more than average success.

We have, this year, begun the use of the State of Maine Admission, Promotion and Discharge Cards. These cards furnish a complete data of the pupil from the time of admission to the time of graduation or transference.

The spring term should bring the completion of the grading of the rural schools. Beginning next fall we would advocate the use of a course of study. By this method the rural schools would be placed on the same footing as the village schools. The work would tend to be unified, each school covering the same amount of work in practically the same period of time.

The teachers of the rural schools have been shifted more than we like, however each change made has seemed to be absolutely necessary. The full number of weeks will have been maintained if no further sickness arises.

VILLAGE SCHOOLS.

There has been but one change in the teaching force of the village schools. Miss Jones takes the place of Miss Packard in the Primary grades. The entire work has been very satisfactory.

Mrs. Burgess has held her grades in the schoolhouse near the railroad. The quarters there are very comfortable. It will probably be necessary to keep the school there for two or three years at least unless conditions are radically changed.

HIGH SCHOOL.

The enrollment of the high school is the largest it has been for many years. This necessitated the use of more room. The surplus is conveniently and comfortably housed in the third and fourth grade rooms. Mrs. Miller now teaches the entire day.

The chemistry laboratory is in better condition than ever before. More apparatus is needed in the Physics department.

The high school has been classified as an "A" school and there is no reason why this standard should not continue. We do wish however, that more citizens and parents would visit the high school, in fact. all the schools, and see for themselves just what is being done.

TEXT BOOKS.

Our text books and supplies have cost us more than usual for two reasons; first, increased cost of materials; second, the larger number of books necessary for the increased enrollment of our schools.

REPAIRS.

Our repair account is in good condition when we consider the amount of work done. The blackboards of all the schools have been painted and all necessary repairs have been made. The schoolhouse near the railroad has been put in good condition. The Oak Hill and Sandy River schoolhouses need a few repairs.

COMMON SCHOOL ACCOUNT.

AUDITOR'S REPORT.

I hereby certify that I have examined the foregoing accounts of the town officers of the town of Norridgewock for the year ending February 15, 1919, and that I have found the same correct, with proper vouchers for all disbursements therein mentioned.

Wm. B. LONGLEY, Auditor.

Warrant for Annual Town Meeting.

To Charles A. Grant, Constable of the Town of Norridgewock,

GREETING:

In the name of the State of Maine; you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to meet at the Town Hall, in said town of Norridgewock, on MONDAY, the Third day of March, A. D. 1919. at one o'clock in the afternoon, to act upon the following articles:

First. To choose a moderator to preside at said meeting.

Second. To attend to the reports of the various town officers and take such action thereon as may be desired.

Third. To elect a Town Clerk, Selectmen, Assessors and Overseers of the Poor, Fire Warden and Inspector and all other officers required by law to be chosen at said meeting.

Fourth. To allow such claims for pay to town officers as may be voted.

Fifth. To elect a member of the Library Committee, to serve five years.

Sixth. To see if the town will vote to raise and appopriate a sum of money for the salary of the superintendent of schools for the ensuing year and pass all necessary votes respecting the same.

Seventh. To see what sum the town will raise for the building and repair of roads, bridges and culverts for the ensuing year.

Eighth. To see what sum the town will raise for payment of the principal and interest of bridge loans.

Ninth. To see what sum the town will raise for building and repair of sidewalks and street drains.

Tenth. To see what sum the town will raise for the breaking of snow roads.

Eleventh. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to state aid as provided in Section 19 of Chapter 24 of the Revised Statutes of 1916.

Twelfth. To see if the town will appropriate and raise the sum of $533. for the improvement of the section of State Aid road as outlined in the report of the state highway commission, in addition to the amounts raised regularly for the care of ways, highways and bridges; the above amount being the maximum which the town is allowed under the provisions of Section 18 of Chapter 24 of the Revised Statutes of 1916.

Thirteenth. To see what sum the town will raise for the support of the free public library and books for the same.

Fourteenth. To see what sum the town will raise for the support of poor and the payment of town expenses for the ensuing year.

Fifteenth. To see what sum the town will appropriate and raise for the support of free high school for the ensuing year.

Sixteenth. To see what sum of money the town will raise for the support of common schools for the ensuing year.

Seventeenth. To see what sum the town will raise for text books, supplies, janitors, insurance and lights.

Eighteenth. To see what sum the town will raise for the repair of schoolhouses.

Nineteenth. To see what sum the town will raise for the payment of bonded debt and interest thereon.

Twentieth. To see what sum the town will appropriate for Memorial Day.

Twenty-first. To see what sum the town will raise for the Fire Department and pass all necessary votes respecting the same.

Twenty-second. To see if the town will vote to hire temporarily, such sums of money as may be necessary to meet current expenses until the next tax can be assessed and collected.

Twenty-third. To see if the town will fix the date when each taxpayer's tax shall become due and the date when the collector shall settle with the town and pass all necessary votes respecting the same.

Twenty-fourth. To see if the town will vote to raise a sum of money for planking another third of the surface of the floor of the covered bridge across the Kennebec.

Twenty-fifth. To see if the town will vote to install a street light at the corner of Welch and Perkins streets.

Twenty- sixth. To see if the town will vote to install three or more street lights between the corner of the Starks and the Mercer roads, near Chas. L. Holbrook's house and the house of Chas. R. Miller.

Twenty-seventh. To see if the town will authorize any change in the street lamps and if so, what, and appropriate and raise a sum of money for the same.

Twenty-eighth. To see what sum the town will raise for the support of street lights.

Twenty-ninth. To see if the town will raise a sum of money for guide boards and posts for same.

Thirtieth. To see if the town will raise a sum of money for the rebuilding of the road fence to the Main street cemetery in the south village.

Thirty-first. To see if the town will raise a sum of money for the proper rebuilding and resurfacing of Mechanic Street from the railroad crossing to the foot of the hill near Wallace Witham's house.

Thirty-second. To see if the town will raise a sum of money for gravelling the surface of Depot Street.

Thirty-third. To see if the town will accept two hundred dollars ($200.) in trust for the perpetual care of the burial lot of the late Martha J. Hathaway, in accordance with law and the terms of her will.

Thirty- fourth. To see if the town will vote to authorize the selectmen to apply for state and county aid in the re-construction of Meadow Brook bridge, on the Mercer road, just easterly from Frederic's Corner, and pass all necessary votes respecting the same.

Thirty-fifth. To see if the town will vote to raise a sum of money not exceeding one thousand dollars, which together with what money the State has to appropriate as State Aid road money and what the town has already raised and appropriated for state aid road, will amount to the town's half of the re-construction of said Meadow Brook bridge, near Frederic's Corner aforesaid.

Thirty-sixth. To see if the town will vote to convert that part of the town debt, represented now by interest bearing town orders and interest bearing notes, and amounting to fourteen thousand dollars ($14,000.), into coupon bonds bearing interest at a rate not to exceed four per cent: details as to actual issue of said bonds to be taken up at a special town meeting, as soon as the selectmen and town treasurer can formulate a definite plan for same.

Thirty-seventh. To see if the town will vote to recommend that the selectmen choose a road commissioner for the ensuing year and if so, to choose by ballot, such candidate, by major vote as the town wishes the selectmen to appoint for said office of road commissioner.

The selectmen will be in session at the office of Frank L. Ames, in said town on said third day of March, 1919, at ten o'clock in the forenoon for the purpose of correcting the check list.

Given under our hands this fifteenth day of February, A. D. 1919.

FRANK L. AMES
A. A. CHEVIOT
S. F. MILLER
} Selectmen of Norridgewock.

To services	$444 42	
Total expenditures		$444 42
To balance on hand		$36 72

RECOMMENDATIONS FOR THE COMING YEAR

I have made a careful survey of the local conditions and after much figuring I find the following as necessary to run the schools for the next fiscal year:

Common schools, High school, text-books and supplies, including overdraft	$10,500 00
Superintendence, including overdraft	700 00
Repairs, including overdraft	550 00
Physical education	200 00

In conclusion, we wish to express to all the interest that all have had for their schools; their support, both financially and in all ways. We wish to thank the committee for their good counsel and support. We also wish to thank all for all have given of their support in so many ways that it would be hard to enumerate them.

Respectfully submitted,

EDWARD A. SIMONEAU,

Superintendent of Schools.

Report of Schools.

THE SUPERINTENDENT AND SUPERINTENDING SCHOOL COMMITTEE'S REPORT AND RECOMMENDATIONS

Citizens of Norridgewock:

The following is the report of the schools for the year ending February 15, 1920:

The past school year has gone fairly smoothly, altho in several individual cases the school year has been broken by sickness and shortage of teachers. If higher wages are not paid the spring term will find more of the schools without a teacher. Teachers everywhere are receiving more wages, therefore we must pay higher wages; if not, we will have inexperienced and incompetent teachers.

We had to raise the salaries of the village and high school teachers. We fortunately received a special Secondary Equalization fund which covers the raise given the high school teachers. We did not receive the Common School equalization fund this year, due to the fact that we did not raise an average amount as compared with that raised in other towns of the state.

The Course of Study compiled by the State Department, has been placed in the hands of each teacher, and has proved a great help; especially to teachers either beginning or with little experience. As time goes on the use of this course of study will place all the schools on an equal basis.

VILLAGE SCHOOLS

There has been no change in the teaching staff of the village schools. The attendance has been above the normal. The fifth and sixth grade rooms have been uncomfortably crowded and as the attendance for the coming year promises to be large seats must be procured.

HIGH SCHOOL

The high school enrollment is still large. The freshman

class occupies what was formerly the third and fourth grade room.

Mr. Fowler came to us this fall and is doing excellent work. This spring a course in physiology will be given, the first time for several years.

TEXT BOOKS

Our text books are now in good shape; however several changes must be made, especially the geographies which must be brought up-to-date, covering the changes made in the late war. As required by the State Department, arrangement must be made for physicial instruction, in all the schools. Also, a history covering Beginnings of American and European history must be put in the sixth or seventh grade.

REPAIRS

Most of the schoolhouses are in fair condition. Several need to be painted as soon as cost resumes a fairly normal condition. Up-to-date out-houses should be built.

AUDITOR'S REPORT.

I hereby certify that I have examined the foregoing accounts of the town officers of the town of Norridgewock for the year ending February 15, 1920, and that I have found the same correct, with proper vouchers for all disbursements therein mentioned.

W. B. LONGLEY, Auditor.

Warrant for Annual Town Meeting.

To H. N. Carr, Constable of the Town of Norridgewock,

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to meet at the Town Hall, in said town of Norridgewock, on MONDAY, the First Day of March, A. D. 1920, at one o'clock in the afternoon, to act on the following articles:

First. To choose a moderator to preside at said meeting.

Second. To attend to the reports of the various town officers and take such action thereon as may be desired.

Third. To see what sum the town will vote for the compensation of Selectmen, Assessors and Overseers of the Poor for the ensuing year.

Fourth. To elect a Town Clerk, Selectmen, Assesseors and Overseers of the Poor, Fire Warden and Inspector and all other town officers required by law to be chosen at said meeting.

Fifth. To allow such claims for pay to town officers as may be voted.

Sixth. To see if the town will vote to elect a road commissioner and if so voted to elect a road commissioner.

Seventh. To elect a member of the Library Committee to serve for 5 years.

Eighth. To see if the town will vote to raise and appropriate a sum of money for the salary of the Superintendent of Schools for the ensuing year and pass all necessary votes respecting the same.

Ninth. To see what sum the town will raise for building and repairing roads, bridges and culverts for the ensuing year.

Tenth. To see what sum of money the town will raise for building and repairing sidewalks and street drains.

Eleventh. To see what sum of money the town will raise for breaking snow roads.

Twelfth. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in section 19 of Chapter 24 of the revised Statutes of 1916 and acts amendatory and additional thereto.

Thirteenth. To see if the town will appropriate and raise the sum of $533. for the improvement of the section of the state aid road as outlined in the report of the State Highway Commission, in addition to the amounts raised regularly for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed under the provisions of section 18 of Chapter 24 of the revised Statutes of 1916 and acts amendatory and additional thereto.

Fourteenth. To see if the town will vote to authorize the Selectmen to employ a patrolman to look after the highway from the Fairfield line at Larone to the corner of Main and Mechanic Streets and thence by Mechanic Street to the Smithfield town line compensation for the same to be taken from the regular highway appropriation.

Fifteenth. To see what sum of money the town will raise for the support of the Free Public Library and books for the same.

Sixteenth. To see what sum of money the town will raise for the support of poor and the payments of town expenses for the ensuing year.

Seventeenth. To see what sum of money the town will appropriate and raise for the support of the Free High School for the ensuing year.

Eighteenth. To see what sum of money the town will raise for the support of Common Schools for the ensuing year.

Nineteenth. To see what sum of money the town will raise for text books, supplies, janitors, insurance and lights.

Twentieth. To see what sum of money the town will raise for the repair of schoolhouses.

Twenty-first. To see what sum of money the town will raise for the payment of bonded debt and interest.

Twenty-second. To see what sum the town will raise to pay on floating indebtedness and interest.

Twenty-third. To see what sum of money the town will appropriate for Memorial Day.

Twenty-fourth. To see what sum of money the town will raise for the purpose of procuring a flag and pole or staff for the High School building.

Twenty-fifth. To see what sum of money the town will raise for the Fire Department and pass all necessary votes respecting the same.

Twenty-sixth. To see if the town will vote to raise a sum of money to reimburse Chester Kinney for the loss of his horse and cream at the culvert near the Leander Butler place.

Twenty-seventh. To see if the town will raise a sufficient sum of money for the purpose of finishing the replanking the cov-

5 2

ered bridge across the Kennebec River.

Twenty-eighth. To see if the town will vote to hire temporarily such sums of money as may be necessary to meet current expenses until the next tax can be assessed and collected.

Twenty-ninth. To see if the town will fix the date when each tax payer's tax shall become due and the date when the collector shall settle with the town and pass all necessary votes respecting the same.

Thirtieth. To see if the town will vote to maintain the street light at the corner of Welch and Perkins Streets.

Thirty-first. To see if the town will vote to instruct the Selectmen to purchase a gravel pit.

Thirty-second. To see what sum of money the town will raise for the support of street lights.

Thirty-third. To see if the town will vote to accept the sum of two hundred dollars for the perpetual care of the Llewllyn Brown lot in the Riverview Cemetery and the sum of one hundred fifty dollars for the perpetual care of the Brown & Leavitt lot in the cemetery on the North side of the River.

Thirty-fourth. To see if the town will vote to let the pupils have the town hall for actual cost when it is to be used for school benefits.

The Selectmen will be in session at the residence of E. H. Burgess in said town on said 1st day of March, 1920, at ten o'clock in the forenoon for the purpose of correcting the check list.

Given under our hands this 16th day of February, A. D. 1920.

E. H. Burgess
E. H. Tobey
H. A. Gilman
} Selectmen of Norridgewock.

ESTIMATES FOR NEXT YEAR

The following estimates are suggested by a gathering of town officers and such other citizens as were interested to be present recently:

Roads, bridges and culverts	$5,000.00
Snow roads	1,000.00
State aid roads	533.00
Sup't. of Schools	350.00
Library	250.00
Poor and town expenses	2,000.00
Free High school	2,300.00
Common schools	6,000.00
Text books, supplies, insurance, janitors and lights	800.00
Repairs on schoolhouses	250.00
Bonded debt and interest	3,100.00
Floating debt and interest	2,000.00
Fire department	300.00
Street lights	500.00
Sidewalks and street drains	500.00
Physical education	200.00
Selectmen's services	700.00
	$25,083.00
State tax (estimated)	6,121.10
County tax (estimated)	1,181.06
Total	$32,385.16

Report of Superintendent of Schools

To the Superintending School Committee of Norridgewock and Citizens:

Ladies and Gentlemen:

I herewith submit this my first annual report of the condition, needs and progress of the schools of your town.

Throughout the country during the past few years, although there has been retrenchment along other lines, there has been no such a thing when it has come to supporting

education. This very much applies to Norridgewock, yes, in a very large measure, for, during the few months that I have been here, in this your town, during my short survey of local conditions, it has been very encouraging to me to note what a wholesome and whole-hearted interest the citizenship is taking in education, and the willingness of the people in supplying the adequate funds for educating the children and young people of your town. We are working for the advancement of the education of your children and during the few months that we have been here, we have been working at many things, unknown by many, perhaps only by school board and committeemen, but we now have practically all things started on a working basis and it is our wish to now keep on as things now are and work for efficiency. A school system is generally and usually as good as the public will support. I therefore, in this my first report to you, desire to create a conscious bond between the schools and the people through information as to what we have done along certain lines during these past few months and our proposed plans for the future.

It has been most gratifying and encouraging to me in my new duties to have a School Board which is anxious to cooperate in promoting the best interests of the school. Members who were always ready to approve worth while things and say to us to go right ahead if we have anything good to offer for the cause of education. Not many towns can say with us, as the truth really is, that Norridgewock is to be complimented on having all of its teachers who make the town their home and to find so many who are seen in the harnesses of education in various towns of our dear "Pine Tree State" and away to other States. Right here I wish to suggest that it would be certainly a grand movement for the near future to have a Teachers' Training Course in your High School where the many graduates for a town of its size would perhaps get a two year course to then help impart knowledge to the coming generations.

During my short survey many suggestions have been offered and many problems have been studied out. It is

therefore my purpose within the next year to give tests in our schools such as have been given to hundreds and thousands of children in the up-to-date schools of our land. We do not plan at all to set our standards but will use the standards set elsewhere and that and nothing less will be our target. I shall strive to show my teachers not only how to use these tests but also how to tabulate results and interpret them. In this way we hope to locate our problems and if possible prescribe a remedy.

All of the schools of this vast country of ours have many problems to solve. The problems of our state may be different than those of another. I am, therefore, accepting the school problems of Norridgewock as I find them, and, with the help of the many excellent facilities placed at my disposal shall hope to put into use modern educational practices.

I am presenting herewith some explanations, plans, solutions and devices which we should, everyone of us, be thinking about very seriously. The first that I wish to submit is

TEACHERS' SALARIES

Much has been said about salaries of the teachers of the public schools of late years but I am sure that few or none have ever thought of the matter very seriously. A teachers's salary is best understood by turning the yearly pay into a day wage table. Then and only then will the salary that the teacher gets be fully understood. There are 12 months and out of that 313 working days in the year for which most other forms of work are paid. That our teachers work for only from 30 to 36 weeks in the year is partly necessitated by the nerve-racking character of teaching, and in part by the requirements of children and parents. The teacher must live the whole year around. Our wage scale gives the following results:

ELEMENTARY SCHOOLS

$360 per year means $1.15 per working day.
$390 per year means $1.25 per working day.

$450 per year means $1.44 per working day.
$570 per year means $1.82 per working day.
$600 per year means $1.92 per working day.

SECONDARY SCHOOL (ASSISTANTS)

$810 per year means $2.59 per working day.

No woman teacher in this town at present gets beyond this salary. Compare these figures with the wages paid carpenters, machinists, plasterers, hod-carriers, dressmakers, scrubwomen, nurses, and all the rest of them, nearly all of them are better paid, at annual salaries than are teachers, though the educational and professional preparation required for such comparable with that required of teachers. This is just a few facts, boiled down, and which should at this annual meeting be kindly borne in mind for the coming year appropriations. I however refer you to that part of my report for these figures.

SCHOOL ATTENDANCE

An imperative requirement for pupils to maintain the best standing in school and thereby get the best start in life is regular school attendance. A large percentage of retardation is brought about by failure to attend school regularly. A day's absence cannot easily be made up; a week's absence may so break the continuity of mental development that the individual will feel the gap through life. The wound may heal but the scar will be painfully apparent. An absence of a month is usually fatal to progress and the pupil does well to repeat the year rather than try to overcome the handicap.

Every precaution should be taken to prevent children from missing school. Every effort of the school people and every requirement on their part which is calculated to prevent the pupils failing should receive the sympathy and assistance of the parents. The goal, therefore, for the coming year should be the following as required by the

State Department of Education in their Score Card, at least 95% of attendance and not over 5% of retardation.

REPAIRS

Many of the rural schools will need immediate attention in this respect. I would heartily suggest that one school building be taken at a time, repair and remodel so as to meet State Standards and then no more attention need be given this building for some time. We believe that the voters have already noticed some of the improvements since last July 1, 1920. The entrance to the village school has always been a menace to life due to the icy conditions and this has been taken care of by the enlargement of the roof over the front steps and shedding the water dripping from main building in an opposite direction.

The old pumps in the basement have been replaced by the use of faucets that now supply water for all, which in the past has been a great trouble and hinderance to many. We have arranged the piping so that with small expense piping could be continued upstairs for hose-connection.

Schoolhouses throughout the town received more or less attention but much more remains to be done.

FINANCE

The cost of maintaining the schools has been rather large for the year but taking all in all, as one of the members of the school committee said on more than one occasion, the town appropriations would nearly have carried us through had there not been no unpaid bills, bills paid for last year out of this year's appropriation, etc. I have figured out these items and have found the following:

Unpaid bills, better than $500.

Bills paid this year for last year, approximately $1200.

Overdrafts, $1,233.54.

I give these, not for asking for larger appropriations for the coming year, but to let the voters in general understand financial standing, as many were not present at the special town meeting.

For my recommendations along financial ways I would refer you to that part of my report which has been approved by the Superintending School Committee.

ACCOMMODATIONS

According to reports that have come from the State Department of Education I find that the census returns were 392 persons, that is between the ages of 5 and 21. In 1920 according to the report for that year I find only 366, a decrease of 26 or reduced to a percentage, a loss of between 6 and 7 %. By this one would infer that more space ought to be available in the schools, but some of the rural schools have been closed and conveyed to the village schools. A consolidated school system is the best system of all. Better trained teachers can be provided in village schools, and children received a much better training. Norridgewock is on the right track when the small rural schools are closed and children conveyed to the village school. A congested condition exists in some of the rooms in the village school and if the attendance is as great next year as this year I would heartily recommend that another teacher be added to the present village corps and open up the other room in the small school if better means cannot be devised.

TEACHERS

To quote the words of a famous educator "we have now reached the crisis in the teacher shortage" and have been lucky in having the same teachers for the Fall and Winter terms in all of the schools that were maintained. We know nothing of the Spring Term, 1920, hence omit that term in this report.

The regular teachers who have taught for sometime in the village schools were retained and the rural schools were all filled with Norridgewock High School graduates, some with experience and others with no experience. That brings to mind that there is no better time to emphasize upon the voters the need of a

TEACHER TRAINING COURSE.

Many of the schools in the rural sections are filled with high school graduates. These girls drop out of school after graduation, many to teach, and with their teaching tools rather blunt. Would it not be a good thing to have such a course in our high school? I am sure that a part of the expense would be borne by the State. Many of our best teachers have been the product of a two year Teacher Training Course. The good teacher is cheap at any price but the poor teacher is too dear at any price.

THE MARY SAWTELLE WILLIAMS LIBRARY

We understand that money has been placed at interest and this income which amounts to $60 per year to be expended in procuring books for the Traveling Library. Norridgewock is to be complimented on having been the recipient of such a gift from this good friend known by a good many of the voters, if not by all. We wish at this time, to thank this good woman for having donated this sum of money for procuring library books for use by the school children out of school hours. Not much interest has been shown, I am told, of late years, along this one phase of the work in connection with our schools. I have been unable to procure new books during the past few months except to pay back bills. We have already made arrangements for a complete reorganization of this work and hope to have all in readiness soon. We would refer you to our financial report which follows our report on progress, conditions and needs for the standing along financial lines of this school account.

THE COURSE OF STUDY

Many changes have been made during the last seven or eight months. The changes that have been made in the history of the world through the Great War have shown to us that new things are of today. Hence we have tried as far as we could to do what we could along this line but much

more needs to be done. The work of the rural schools must be so that it will confirm the work of the village schools and also a uniform set of books throughout the town. We have placed in the hands of teachers, where not already in use, the State Course of Study and it is our wish that it would be followed. A close cooperation by all, pupils, teachers and superintendent is of course necessary to make it a complete success.

HIGH SCHOOL

Not much can be said by me except that you have certainly a fine high school for a town of this size and population. Good work has been done by all the teachers during the time that it has been my privilege to make my survey. We would ask the voters to kindly bear in mind at the annual meeting that a larger appropriation is needed than was appropriated at the last regular town meeting. We have already found that the people of this town are very generous for their schools, hence we know that this will be taken care of in due time.

I herewith follow with the financial statement. We have endeavored to classify all expenditures and to make all very plain to the voters.

AUDITOR'S REPORT

I hereby certify that I have examined the foregoing accounts of the town officers of the town of Norridgewock for the year ending February 15, 1921, and that I have found the same correct with proper vouchers for all disbursements therein mentioned.

W. B. LONGLEY, Auditor.

Warrant for Town Meeting

To A. C. Bigelow, Constable of the Town of Norridgewock: GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to meet at the Town Hall, in said town of Norridgewock, on Monday, the seventh day of March, A. D. 1921, at one o'clock in the afternoon, to act on the following articles:

First. To choose a moderator to preside at said meeting.

Second. To attend to the reports of the various town officers and take such action thereon as may be desired.

Third. To elect a Town Clerk, Selectmen, Assessors and Overseers of the Poor, Fire Warden and Inspector and all other town officers required by law to be chosen at said meeting.

Fourth. To allow such claims for pay to town officers as may be voted.

Fifth. To see if the town will vote to elect a road commissioner; and to elect him if the town so votes.

Sixth. To elect a member of the Library Committee to serve for five years.

Seventh. To see what sum the town will raise as compensation of the Superintendent of Schools.

Eighth. To see what sum the town will raise for building and repairing roads, bridges and culverts for the ensuing year.

Ninth. To see what sum the town will raise for building and repairing of sidewalks, to be expended by selectmen.

Tenth. To see what sum the town will raise for breaking snow roads.

Eleventh. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 19 of Chapter 24 of the revised Statutes of 1916 and acts amendatory and additional thereto.

Twelfth. To see if the town will appropriate and raise the sum of $533 for the improvement of the section of the State aid road as outlined in the report of the State Highway Commission, in addition to the amounts raised regularly for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed under the provisions of Section 18 of Chapter 24 of the revised Statutes of 1916 and acts amendatory and additional thereto.

Thirteenth. To see if the town will raise the sum of seven hundred dollars ($700) to be expended in making permanent repairs to the road from the bridge on Main Street to the railroad crossing.

Fourteenth. To see what sum of money the town will raise for the support of the Free Public Library and books for the same.

Fifteenth. To see what sum of money the town will raise for the support of the poor and payment of town expenses for the ensuing year.

Sixteenth. To see what sum of money the town will raise and appropriate for the support of the Free High School for the ensuing year.

Seventeenth. To see what sum of money the town will raise for the support of Common Schools for the ensuing year.

Eighteenth. To see what sum of money the town will raise for text books, supplies, janitors, insurance and lights.

Nineteenth. To see what sum of money the town will raise for the repair of schoolhouses.

Twentieth. To see what sum of money the town will raise for the payment of bonded debt and interest thereon.

Twenty-first. To see what sum of money the town will raise for the payment of floating indebtedness and interest thereon.

Twenty-second. To see what sum of money the town will appropriate for the proper observance of Memorial Day.

Twenty-third. To see what sum of money the town will raise for the Fire Department, and pass all necessary votes respecting the same.

Twenty-fourth. To see if the town will vote to authorize the selectmen to hire temporarily, such sums of money as may be necessary to meet current expenses until the next tax can be assessed and collected.

Twenty-fifth. To see if the town will fix the date when each taxpayer's tax shall become due and the date when the collector shall settle with the town and pass all necessary votes respecting the same.

Twenty-sixth. To see what sum of money the town will raise for the support of street lights, and what new lights it will establish.

Twenty-seventh. To see if the town will vote to maintain two additional street lights, on the Mercer road, maintained by the selectmen during the past year, without definite authority from the town.

Twenty-eighth. To see if the town will vote to install and maintain one additional street light, nearly opposite the house of Fred H. Tobey, on East Main Street.

Twenty-ninth. To see if the town will vote to raise the sum of two hundred dollars, to be expended by the selectmen, for the purpose of re-constructing the south approach to the covered bridge, in such a way as to prevent surface water from running into the bridge.

Thirtieth. To see if the town will raise two hundred dollars and appropriate four hundred dollars for the purpose of physical education in the schools.

Thirty-first. To see if the town will raise the sum of twenty-five dollars, to be expended by the selectmen, for care of the park at the Soldiers' Monument at Peet Corner.

Thirty-second. To see if the town will vote to accept the sum of one hundred dollars from George L. Bryant, of Oakland, for the perpetual care of the Hawley Emerson lot, in Riverview Cemetery.

Thirty-third. To see if the town will vote to pay to the estate of the late Charles A. Atkinson, a sum not exceeding one hundred and twenty-five dollars, on account of the loss of a steer which was killed by entanglement in barbed wire, understood to have been left carelessly strung along in the limits of the highway by Peter Lagasse, and pass all necessary votes respecting the same and respecting the damage and injury.

Thirty-fourth. To see if the town will vote to raise or appropriate a sum of money for the decoration with flags on Memorial Day, of graves of deceased soldiers and sailors, and pass all necessary votes respecting the same.

Thirty-fifth. To see if the town will vote to authorize the selectmen to lease the town hall, for a term not exceeding one year from the expiration of the present lease, and pass all necessary votes respecting the same.

Thirty-sixth. To see if the town will vote to authorize the selectmen to investigate the advisability and cost of buying a suitable lot upon which to erect a storehouse for road machinery and tools; and upon the advisability of selling the old storehouse and pass all necessary votes respecting the same.

Thirty-seventh. To see if the town will vote to fix the pay of men and teams for snow road work, and pass all necessary votes respecting the same.

The selectmen will be in session at the office of Frank L. Ames, in said town on said seventh day of March, 1921, at ten o'clock in the forenoon for the purpose of correcting the check lists.

Given under our hands this sixteenth day of February, A. D. 1921.

FRANK L. AMES
E. H. TOBEY
H. A. GILMAN } Selectmen of Norridgewock.

ESTIMATES FOR NEXT YEAR

The selectmen make the following estimates and submit them to the town, with the warning that the most cautious and level-headed planning will be required this year, if the tax rate is not raised; the town will have to prune out all but bare necessities and may have to face a higher tax rate anyway, because some $1,600 of last year's taxes on manufactured lumber will not be available this year and must be raised on other property.

If the town votes to have the streets sprinkled, either with oil or with water, the expense will all be assessed on the abutting land-owners; no street sprinkling machinery or pumps should be bought by the town; the re-building of the log abutment of Martin Stream bridge with granite and on money borrowed, should now be paid for out of this year's summer road money. This abutment cost about $400.

No heavy road expense is in sight, but the pauper bills are growing; several persons of advancing age are leaning heavily on the town; the schools are doing well on the present appropriations and must be held strictly within them, the peak of high prices having been reached.

Report of Superintendent of Schools

To the Superintending School Committee of Norridgewock and Citizens:

Ladies and Gentlemen:

I herewith submit this my second annual report of the conditions, needs and progress of the schools of your town.

Many changes have taken place along educational lines during the past year throughout the length and width of our land, yet not so much in any one community. The people throughout our great land, yes, especially our own State, have done much during the recent so-called high cost of living period and certainly have responded well to support education. Was it not in my last report that we mentioned that a school system is generally and usually as good as the public will make it? Education is the back bone of all things. It is the back bone of our Great Nation. Take away *Education* and we return to the age where our forefathers were hundreds of years ago. We know that the people of Norridgewock have forfeited much to help along educational lines. This we know by looking up the records of the past years.

Many problems have been before us during the past year. Many of these problems we have been able to solve; many still remain unsolved. We have tried during the year to improve many things. One must at all times realize that it is a difficult task to do too many things at one and at the same time. Therefore some problems have been known to us and committee members but no attempt made because no remedy was at hand for the time being. One is always to keep this in mind that when something is completely out of order it takes time to again get the same in as good a condition as possible. The farmer who studies the various problems of the farm well knows that when a certain piece of land is completely run down that it takes some time to get the same in good condition. The school

problems are the greatest problems to solve. One of the greatest problems of the year and one that was a difficult problem to solve was the

SEWERAGE SYSTEM

Through some means the sewer has been slowly but surely filling up from the school ground to the mouth at the so-called Mill stream. We had to close school for a time last spring to remedy the situation. Many of the voters here assembled in this hall well know the then existing conditions. Of course all must realize that we had no resources to take care of this unforeseen difficulty and acting upon advice of the committee members we remedied the situation in so far as we could. The complete line of sewerage pipes were dug up and cleaned but at a greater cost than we would have liked, but we are sure that all did their very best. We would refer the voters to the financial part of our present report for the cost of this unforeseen difficulty and would recommend that an extra amount be raised for the purpose of cleaning up this overdraft.

SUPERINTENDENT'S OFFICE

For a long time it has been felt that a place was needed to keep track of school text-books and supplies and also a place where the superintendent could have a desk and office fixtures suitable for the performing of all school duties. After some discussion and planning it was agreed to make such an office in the space between the High school main room and Primary room. Not many of the citizens know of this, so why not ask for information regarding this improvement and see for yourself. The grand bulk of this expenditure was borne by the State.

SCHOOL FLAGS

The schools are now being fast supplied with flags as required by law. We plan for every school to have a flag and that it be at all times displayed, weather permitting. The High school building had a good flag but no place to display the flag. We started to remedy this situation by having a pole fastened on the front of the building. Little did we know how to finance the proposition but found out that means had been provided. The Village Improvement Society gladly came to our help and paid the entire cost. For the expenditure we would refer you to our financial report. Therefore, we simply super-

intended the work; Messrs. Brackett and Huff installed the pole and fixtures, and the Village Improvement Society took care of the bills. Our many thanks are due these good women and all who helped in such a good cause.

NEW SCHOOL LAWS

Each and every session of our Legislature sees many changes in our laws. Many were passed at the last session which pertained to schools. After Sept. 1, 1924, it is required by law that each and every building used as a school shall have certain kinds of outbuildings. This means that every year beginning this year that Norridgewock must meet the requirements of the law. I would recommend that three of the outbuildings be remodeled so as to meet State requirements. I refer you to my recommendations for further details.

Still another change is the apportionment of school money to be received from the State. In the past the apportionment was based partly on valuation and census but hereafter it will be based on teaching positions, census and aggregate attendance. My personal idea is that we may perhaps receive a trifle more from the State than heretofore.

FINANCE

The cost of maintaining the schools has this year been about the same as the year preceding. We began the year with no unpaid bills and with a small overdraft as one can see by looking up the financial standing. The enrollment in the High school this year has been larger than ever before. We have had fourteen pupils this year on the tuition plan and of course helped much financially. We worked hard to secure some of these out-of-town High school students and helped in our secondary receipts.

We are of the belief that as much as last year must be raised for schools to keep up our present standard. Our teachers are not getting more than they should receive. For my recommendations along financial lines I would refer you to that part of my report dealing with finance.

ACCOMMODATIONS

The school census as taken last April showed that there were then in Norridgewock, 207 males and 205 females between the age of 5 and 21. By looking up the report of the preceding year we find

366, thus showing an increase of 46 or when reduced to percentage, an increase of over 12%. By this one can see at a glance that a congestion must exist somewhere. As was said last year, a consolidated school system is by far the best system of all. Better trained teachers can be provided in village schools, and children receive a much better training. Consolidation is the only system for today and tomorrow. All the little red schoolhouses are the schools of yesterday.

A congested condition exists in some of our schools and as the attendance for the coming year bids fair larger, we would suggest that some means be taken to remedy the situation. The seventh and eighth grades room is much overcrowded. Children have to be seated here and there, even on chairs rather than in regular desks, some even seated at teacher's desk. Children cannot study in such a congested condition. We would recommend that something be done to remedy the existing conditions.

TEACHERS

The opening of the fall term found our Mr. Woodman as principal once more; Mrs. Webster as first assistant. Mrs. Mabel Miller who had taught for a number of years resigned during the latter part of the summer and her place was taken by Miss Margaret Rice, a Colby College graduate. The three High school teachers have worked faithfully and we have nothing but words of praise for these three soldiers of education.

In the village elementary schools no changes were made and good work has been done by these four. The rural schools found one or two changes but we have been very fortunate in keeping our best talent and recruiting the vacancies with good substitutes. All these have done good work.

SCHOOL LUNCHES

We are living in a wonderful age and find improvements being made along all lines. One of the latest improvements along educational lines is Manual Training and Domestic Science in small schools. It is quite a task for a small town to do much along this line. We would, however, recommend that it would be a grand thing if hot lunches were served to those pupils who have to face a cold lunch in the small dinner pail. We see no way at present to finance this proposition but am just breaking the ice and perhaps some one

may be able to solve this problem. Those interested in this proposition might well try what can be done and perhaps some one may help solve the problem.

RECOMMENDATIONS FOR THE COMING YEAR

I have made a careful survey of the local conditions and after much figuring I find the following as necessary to run the schools for the next fiscal year:

Common schools, High school, text-books and supplies, including overdraft	$10,500 00
Superintendence, including overdraft	700 00
Repairs, including overdraft	550 00
Physical education	200 00

In conclusion, we wish to express to all the interest that all have had for their schools; their support, both financially and in all ways. We wish to thank the committee for their good counsel and support. We also wish to thank all for all have given of their support in so many ways that it would be hard to enumerate them.

Respectfully submitted,

EDWARD A. SIMONEAU,

Superintendent of Schools.

Overdraft	$162 81	

Due from towns of Mercer, Starks and Smithfield proportional assessment of New Sharon and Norridgewock Telephone bill and Norridgewock owes proportional cost of Farmers' Telephone bill.

After due consideration of school finance for the coming year I would recommend that the following amounts are needed:

Common schools	$6,000 00
Free High school	2,300 00

Under the provisions of the new laws it is permissible to make but one appropriation for these, that is, combine the common school and free high school accounts into one.

Text-books and Supplies	$1,000 00
General Repairs	250 00

Repairing Toilets	$650 00
Physical Education	200 00
Overdraft, Pump and Sewer	389 28

We would recommend that superintendent be paid from account from which all other town officials are paid.

In conclusion, we wish to thank the school committee, citizens and general public for their hearty support and also for coöperation. The school committee have worked hard at all times and have worked untiringly for the good of the schools. We thank you not only for ourselves but for all interested in education.

Respectfully submitted,

EDWARD A. SIMONEAU,

Supt. of Schools.

AUDITOR'S REPORT

I hereby certify that I have examined the foregoing accounts of the town officers of the town of Norridgewock for the year ending February 15, 1922, and that I have found the same correct with proper vouchers for all disbursements therein mentioned.

W. B. LONGLEY, *Auditor.*

Warrant for Town Meeting

To A. C. Bigelow, Constable of the Town of Norridgewock,

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to meet at the Town Hall, in said town of Norridgewock, on Monday, the sixth day of March, A. D. 1922, at one o'clock in the afternoon, to act on the following articles:

FIRST. To choose a moderator to preside at said meeting.

SECOND. To attend to the reports of the several town officers and take such action thereon as may be desired.

THIRD. To elect a town clerk, selectmen, assessors, overseers of the poor, fire warden and inspector and all other town officers required by law to be chosen at said meeting.

FOURTH. To determine what sums shall be allowed and raised for the several town officers for the ensuing year and to allow such claims for the past year to town officers, as may be voted.

FIFTH. To see if the town will elect a road commissioner and to elect said commissioner, if the town so votes.

SIXTH. To elect a member of the library committee or trustees, to serve for five years.

SEVENTH. To see what sum the town will raise as compensation of the superintendent of schools.

EIGHTH. To see what sum the town will raise for building and repairing roads, bridges and culverts for the ensuing year.

NINTH. To see what sum the town will raise for repairing and building of sidewalks.

TENTH. To see what sum the town will raise for breaking snow roads.

ELEVENTH. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 19 of Chapter 24 of the Revised Statutes of 1916 and acts amendatory and additional thereto.

TWELFTH. To see if the town will appropriate and raise the sum of $533 for the improvement of the section of the State Aid road as outlined in the report of the State Highway Commission, in addition to the amounts raised regularly for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed under the provisions of Section 18 of Chapter 24 of the Revised Statutes of 1916 and acts amendatory and additional thereto.

THIRTEENTH. To see if the town will vote to sprinkle the streets for the summer of 1922, the expense of same to be assessed to the abutting land owners, in accordance with law, and pass all necessary votes respecting the same.

FOURTEENTH. To see what sum of money the town will raise for the support of the Free Public Library and books for the same.

FIFTEENTH. To see what sum of money the town will raise for the support of poor and for payment of town expenses for the year.

SIXTEENTH. To see what sum of money the town will raise and appropriate for the support of the Free High School for the ensuing year.

SEVENTEENTH. To see what sum of money the town will raise for the support of common schools for the ensuing year.

EIGHTEENTH. To see what sum of money the town will raise for text-books, supplies, janitors, insurance and lights.

NINETEENTH. To see what sum of money the town will raise for the repair of schoolhouses.

TWENTIETH. To see what sum of money the town will raise for the payment of bonded debt and interest thereon.

TWENTY-FIRST. To see what sum of money the town will raise for the payment of floating indebtedness and interest thereon.

TWENTY-SECOND. To see what sum of money the town will raise for the proper observance of Memorial Day.

TWENTY-THIRD. To see what sum of money the town will raise for the fire department, and pass all necessary votes respecting the same.

TWENTY-FOURTH. To see if the town will vote to authorize the selectmen to hire temporarily, such sums of money as may be necessary to meet current expenses until the next tax can be assessed and collected.

TWENTY-FIFTH. To see if the town will fix the date when each taxpayer's tax shall become due and the date when the collector shall settle with the town and pass all necessary votes respecting the same.

TWENTY-SIXTH. To see what sum of money the town will raise for the support of street lights and what new lights it will establish.

TWENTY-SEVENTH. To see if the town will raise two hundred dollars and appropriate four hundred dollars for the purpose of physical education in the schools.

TWENTY-EIGHTH. To see what sum the town will raise for the care of park at soldiers' monument, at Peet Corner.

TWENTY-NINTH. To see if the town will vote to authorize the selectmen to lease the town hall for a term, not exceeding one year, from the expiration of the present lease, and pass all necessary votes respecting the same.

THIRTIETH. To see if the town will vote to authorize the superintending school committee to maintain during this year, any and all schools, where the attendance would be insufficient to meet the average attendance required by law, and pass all necessary votes respecting the same.

THIRTY-FIRST. To see if the town will raise a sum of money with which to buy additional road machinery or road machine, and pass all necessary votes respecting the same.

THIRTY-SECOND. To see if the town will approve the list of jurors as presented.

THIRTY-THIRD. To see if the town will vote to raise a sum of money for the purpose of placing a sidewalk on the northerly end of the Main Street bridge, at the same time that the concrete top is placed on said bridge with the State Aid money, and pass all necessary votes respecting the same.

The selectmen will be in session at the office of Frank L. Ames in said town on said sixth day of March, 1922, at ten o'clock in the forenoon, for the purpose of correcting the check lists.

Given under our hands this fifteenth day of February, A. D. 1922.

FRANK L. AMES,
E. H. TOBEY,
H. A. GILMAN,
Selectmen of Norridgewock.

		$78 00	$35 25	$2,318 85

Old Oak Cemetery

Paid for mowing yard, C. M. Lovejoy $6 00

New Oak Cemetery

Paid for care of cemetery, C. M. Lovejoy $2 00

In order to pay the two bills above and to take care of the interest at four per cent. on the several deposits, the town will need to raise the sum of one hundred and thirteen dollars under article thirty-second of the warrant. It would be well to raise each year, four per cent. of the total cash held by the town from sales of lots in New Oak Cemetery, or about twenty-five dollars.

HIGHWAY DEPARTMENT

SIDEWALKS AND STREET DRAINS

County tax		1,409 32
		$38,872 08

The above recommendations seem the lowest possible; but they are more than the town raised last year, $4,925.00.

Report of Superintendent of Schools

To the Superintending School Committee of Norridgewock and Citizens:

Ladies and Gentlemen:

I herewith submit this my third annual report regarding the conditions, needs and progress of the schools of your town.

Every year sees a decided change in the educational forces, in the system as well as in the individual school surrounding. As the times have changed so have all that pertain to education changed. We are, to a certain extent, of nomadic origin, as can very well be seen by looking into each and every individual school center; one year in a certain rural school section sees few families with few or several children; another year finds an entirely different proposition. Such have been some of the problems that have been presented to us the last year. Some of the problems have been at times exceedingly hard to solve. One instance might well be cited; take the so-called Powers school section. So many children are now to be found in this section that it takes two one-horse conveyances to convey the pupils to school. Still at present it looks as though the number of children might be increased instead of decreased. Such a proposition as that takes money to be able to give the children the education due them as required by law. Still in this case is it not yet still cheaper to convey the pupils to the consolidated village school than to try to run a school at the so-called Powers District and expend at least a thousand dollars to repair the old building, which is ready to fall down? If repaired it would of course have to be repaired so as to meet State standards. Such is one example. Many more could be mentioned.

We very well understand that this year has been a very hard one. Not only has it been hard for one but it has been hard for all. We have tried to run the schools as economical as possible and have at all times tried to get one hundred cents worth out of every dollar. It has been extremely difficult in some sections to find out just what to do. But we would advise if possible that more rural schools be closed and

children conveyed to the village schools if such can be done. We do not as yet know what the enrollment will be for the fall term and it may not be possible, for unless the present village enrollment is smaller for the fall term I fear that the closing of more rural schools would be out of the question, for we now have a very bad congested condition.

We believe that all can readily see that gigantic strides are being made along all lines which of course takes in the education of youth, those who shall become the citizens of tomorrow. Good roads and good schools go hand in hand. Take away these and we return to where our forefathers were years ago. Education has been the backbone of our country, hence its wonderful forward stride. Has it not been readily seen during the mighty world conflict some few years ago? Are we not a mighty nation, and has it not been all due to the educational phase? Should we look back to find out what was spent for education fifteen or more years ago, or should we look at matters as they are today? We surely are spending more for education than we ever did. Are we not spending more for all things? We are surely spending more. Then we are surely reaping more. I wonder how many would be willing to return to the days when we dug our potatoes with a spade or a hoe; when we sawed our wood by hand; when we cut our grain with a sickle. Thousands of such examples could be given. Today the average person for business or perhaps for pleasure has a car to go over the ground; modern implements of all kinds to replace hand labor. If things have changed so along these lines, why should they not change educationally? Education has brought about these changes. As all things, no matter what, have cost more, why should it not also be felt educationally? I wonder how many would be willing to return or do as in years gone by, to the time when labor of all kinds would be reduced fifty per cent. or even more? Therefore as all is higher than years ago why should not it cost more to do business?

A word or two relative to the fiscal year and school year. We really believe that a word of explanation will help here for at the special town meeting many seem to be off the right track. The fiscal year is from day of settlement before town meeting to the next day of settlement. This day is about February 15th. Now the school year begins on July 1st and ends on June 30th. No doubt all can readily see that one overlaps the other.

Relative to the overdrafts a word of explanation might be of interest to many for many were not at the special town meeting. No

doubt all remember some three years ago that a special town meeting was called to see what action to take relative to several overdrafts and unpaid bills. Those were all taken care of and ever since all bills have been paid as contracted. But another phase was this: for several years back the teacher, conveyors and any employed educationally or for other educational expenses have always had to wait until after town meeting for the amount due them. For teaching service, janitor, etc., it always ranged from three to five weeks. All must readily see that immediately after town meeting from one-tenth to one-eighth of the appropriation was used up to pay bills of the year before. Now with us no unpaid bills and all employed educationally or for any expense for education paid up to day of settlement, February 15th, places the educational department on a pure business basis.

The High school with three teachers, the village elementary schools with four teachers, and seven teachers for the rural schools, represents the teaching department for the year. In some schools it was found necessary to make changes at the end of terms owing to resignations or through other causes beyond our control.

IN MEMORIAM

The last year has seen one of our very best teachers taken away by death. Mrs. Alice Folsom had taught for many years in the schools of our town in different grades as well as in the High school. She had for some time been teaching in grades five and six and all agree that it was certainly a hard blow to us all to have her taken away from us. She was a teacher of teachers. We certainly all mourn her death.

Relative to conveyances we agree that it cost a good deal to have the children brought to school but would it not cost a great deal more to maintain eleven more schools instead of conveying? We would like to see much better vehicles and better facilities but I really do not see much hope of bettering the situation at the present time.

The last year has seen a new automatic pump and new pressure tank installed in the so-called High school building. The old pump and tank really gave out and nothing else could be done. It was quite an outlay but was an absolutely essential thing and nothing else could be done under the existing conditions.

The last year has seen one of our rural schools repaired and now passes State requirements relative to light and out-building arrange-

ment. Still more needs to be done but we believe that this can readily be remedied in the near future. Still others need to be remodeled so as to meet State standards and no doubt the greater part of our next year appropriation for repairs ought to be used for this particular sanitary repair. The last year we were indeed fortunate in securing from the State the amount of $334.00. If it had not been for the pump and tank outfit which gave way during the early fall when schools had been in session some time we would have had plenty to take care of repairs and a balance on hand after paying the $389.00 overdraft for last year. As it now is we had but about $130.00 overdraft.

We have often thought that it is really a wonder that none have ever been hurt when the children were either entering the school grounds from the other side of the road or else perhaps running across the road at recesses or before and after school. We believe that it would be really a good thing if signs were displayed a few rods on each side of school building on road side to warn automobilists of the existence of a school. It would also perhaps be a good idea to have passing automobiles to slow down. So far an accident has never happened, but who knows how soon it might happen?

There are perhaps many other things that ought or should be included in this report. Many things perhaps should be written for the information of the voter. If any one would like to know of anything that is not included in this report that should be or would like to know of information that can be given by me I shall be pleased to do so.

I shall now call the attention of the voters to the financial part of my report which follows:

FINANCIAL STATEMENT

As is now permissable I now combine resources and expenditures under accounts which follow:

COMMON SCHOOLS, HIGH SCHOOLS

Text-Books and Supplies

RECEIPTS

To common school appropriation	$6,000 00
High school appropriation	2,300 00

RECOMMENDATIONS FOR THE COMING YEAR

I have made a careful survey of the local conditions and after much figuring I find the following as necessary to run the schools for the next fiscal year:

Common schools, High school, text-books and supplies, including overdraft	$10,500 00
Superintendence, including overdraft	700 00
Repairs, including overdraft	550 00
Physical education	200 00

In conclusion, we wish to express to all the interest that all have had for their schools; their support, both financially and in all ways. We wish to thank the committee for their good counsel and support. We also wish to thank all for all have given of their support in so many ways that it would be hard to enumerate them.

Respectfully submitted,

EDWARD A. SIMONEAU,

Superintendent of Schools.

AUDITOR'S REPORT

I hereby certify that I have examined the foregoing accounts of the town officers of the town of Norridgewock for the year ending February 15, 1923, and that I have found the same correct with proper vouchers for all disbursements therein mentioned.

W. B. LONGLEY, *Auditor.*

Warrant for Town Meeting

To A. C. Bigelow, Constable of the Town of Norridgewock,

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to meet at the Town Hall, in said town of Norridgewock, on Monday, the fifth day of March, A. D. 1923, at one o'clock in the afternoon, to act on the following articles:

FIRST. To choose a moderator to preside at said meeting.

SECOND. To attend to the reports of the several town officers and take such action thereon as may be desired.

THIRD. To elect a town clerk, selectmen, assessors, overseers of the poor, fire warden and inspector and all other town officers required by law to be chosen at said meeting.

FOURTH. To determine what sums shall be allowed and raised for the several town officers for the ensuing year and to allow such claims for the past year to town officers, as may be voted.

FIFTH. To see if the town will elect a road commissioner and to elect said commissioner, if the town so votes.

SIXTH. To elect a member of the library committee or trustees to serve for five years.

SEVENTH. To see what sum the town will raise as compensation of the superintendent of schools.

EIGHTH. To see what sum the town will raise for building and repairing roads, bridges and culverts for the ensuing year.

Ninth. To see what sum the town will raise for repairing and building of sidewalks and street drains.

Tenth. To see what sum the town will raise for breaking snow roads.

Eleventh. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Section 19 of Chapter 24 of the Revised Statutes of 1916 and acts amendatory and additional thereto.

Twelfth. To see if the town will appropriate and raise the sum of $533 for the improvement of the section of the State Aid road as outlined in the report of the State Highway Commission, in addition to the amounts raised regularly for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed under the provisions of Section 18 of Chapter 24 of the Revised Statutes of 1916, and acts amendatory and additional thereto.

Thirteenth. To see what sum of money the town will raise and appropriate for the support of the Free Public Library and books for the same.

Fourteenth. To see what sum of money the town will raise for the support of poor and for payment of town expenses for the year.

Fifteenth. To see what sum of money the town will raise and appropriate for the support of the Free High school for the ensuing year.

Sixteenth. To see what sum of money the town will raise for the support of common schools for the ensuing year.

Seventeenth. To see what sum of money the town will raise for text-books, supplies, janitors, insurance and lights.

Eighteenth. To see what sum of money the town will raise for the repair of schoolhouses.

NINETEENTH. To see what sum of money the town will raise for the payment of bonded debt and interest thereon.

TWENTIETH. To see what sum of money the town will raise for the payment of floating indebtedness and interest thereon.

TWENTY-FIRST. To see if the town will raise the sum of $50 for the proper observance of Memorial Day, or what other sum the town will raise for said purpose.

TWENTY-SECOND. To see what sum the town will raise for the fire department, and pass all necessary votes respecting the same.

TWENTY-THIRD. To see if the town will vote to authorize the selectmen to hire temporarily such sums of money as may be necessary to meet current expenses until the next tax can be assessed and collected.

TWENTY-FOURTH. To see if the town will fix the date when each taxpayer's tax shall become due and the date when the collector shall settle with the town, and pass all necessary votes respecting the same.

TWENTY-FIFTH. To see what sum of money the town will raise for the support of street lights and what new lights it will establish.

TWENTY-SIXTH. To see if the town will raise two hundred dollars and appropriate four hundred dollars for the purpose of physical education.

TWENTY-SEVENTH. To see what sum the town will raise for the care of park at soldiers' monument at Peet Corner.

TWENTY-EIGHTH. To see if the town will vote to authorize the selectmen to lease the town hall for a term, not exceeding one year, from the expiration of the present lease, and pass all necessary votes respecting the same.

TWENTY-NINTH. To see if the town will vote to buy one or more snow road rollers, and pass all necessary votes respecting the same.

THIRTIETH. To see if the town will accept the sum of five hundred dollars from the estate of Captain Henry Hall for the Free Public Library, under the terms of his will, and pass all necessary votes respecting the same.

THIRTY-FIRST. To see if the town will raise a sum of money for the improvement and care of the old Oak Cemetery in the north village.

THIRTY-SECOND. To see if the town will raise a sum of money with which to pay interest on cemetery deposits, and pass all necessary votes respecting the same.

THIRTY-THIRD. To see if the town will take any action in regard to the sand drift in the Weld Hill road, near the Longley farm now owned by L. C. Stevens, and pass all necessary votes respecting the same.

The selectmen will be in session at the office of Frank L. Ames in said town on said fifth day of March, 1923, at ten o'clock in the forenoon, for the purpose of correcting the check lists.

Given under our hands this fifteenth day of February, A. D. 1923.

FRANK L. AMES,
E. H. TOBEY,
H. A. GILMAN,
Selectmen of Norridgewock.
